Filling the Gap: Development of Ecological Planning and Design Learning Network and Adaptive Smart Training Module for Disaster Resilient and Sustainable Cities

It's been a monumental first year for the EPD-Net Project, and the data shows exactly how much ground we've covered together. From building a digital community to fostering high-level academic discourse and technical training, we are ending this year with a strong foundation for what comes next. Here is a look at the impact we've made over the last twelve months:

Expanding Our Digital Footprint

Our project's mission has resonated far and wide across digital platforms. The visibility we've achieved is a testament to the growing interest in ecological planning and design.

152,200
Total visits to our website and social media accounts.

13,448
Active engagements where our community interacted with our content.

2,043
Dedicated followers joining us on this journey.

5,063
Personalized emails sent to introduce and explain the nuances of our project to stakeholders.

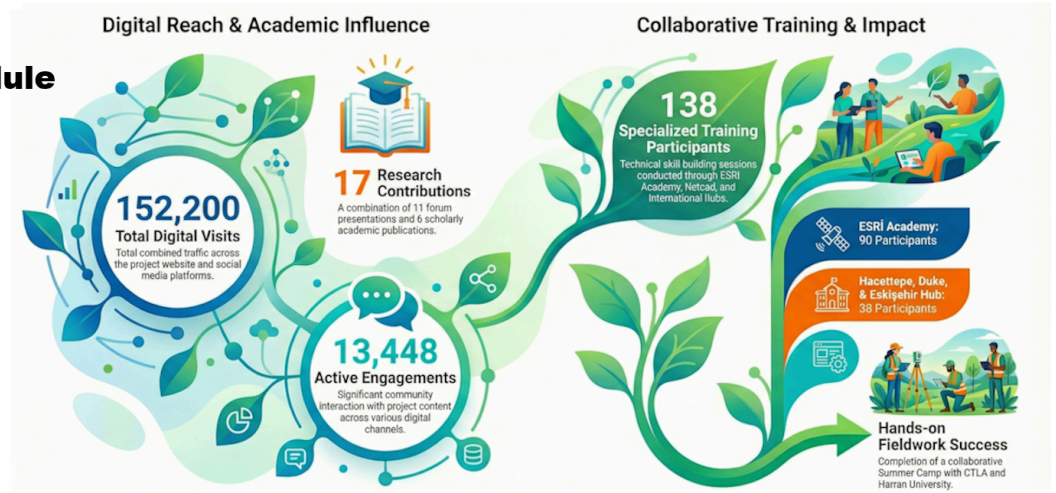

Academic Excellence & Visibility

We haven't just been talking; we've been contributing to the core of the field's knowledge. The project's research output continues to grow in both volume and influence.

11 EPD-Net related presentations delivered at various forums and conferences.

6 Academic publications successfully produced, grounding our work in rigorous scholarly research.

A Year of Growth Reflecting on these numbers, it's clear that EPD-Net is more than just a project; it's a growing network of researchers, professionals, and students dedicated to a more resilient future.
Thank you for being an integral part of this success.
Let's carry this momentum into Year 2!

Collaborative Training & Community Building

One of our proudest achievements this year has been the successful execution of collaborative events that bridge the gap between theory and practice.

Fieldwork & Summer Camps

- We successfully facilitated 1 Summer Camp collaboration with CTLA and Harran University, fostering hands-on learning in a collaborative environment.

Specialized Online Training

Our training modules reached a diverse group of participants through key partnerships:

- ESRİ Academy: Our largest session with 90 participants.
- Netcad Academy: A focused technical session with 10 participants.
- Hacettepe ECHO Hub & Duke University & Eskişehir Technical University: An international collaboration engaging 38 participants.
